

## Metal detector METAL SHARK® BD LPW and HPW options

### LPW

*Low Pressure Washdown.* Ok for normal water hose cleaning, warm or cold water. Water pressure normal, e.g. as from tap.

LPW features: Electronics double protected in second housing. Belt control special protected. Conveyor motor special protected. Degree of protection is IP67.

### HPW

*High Pressure Washdown.* Ok for pressurized water jet cleaning.

HPW features (more than LPW): Sensor opening is special protected by a *hard plastic shell*. Making the hard plastic shell takes longer delivery time. The control box has no opening, except for cable entries. Degree of protection is IP69k.
